valid until: 05.01.2023

Gerald Feigenbutz
General Manager

Link to the company's listed products:

www.gkfp.de/en/product-overview/components-and-procedures/quality-assured-profiles/ege-profil

The company may use the registered mark  for marking the listed products. The icon "profile extrusion" as shown above represents the affiliation to the Gütegemeinschaft and can be used for promotion.

The **white and laminated uPVC profiles** have positively passed the type test acc. to **Technical Appendix A** to RAL-GZ 716.

The company has committed to ensure compliance with the Technical Appendix A and to subject the production of the registered profiles to regular quality control by a neutral inspection body.

The tested profiles shall be used as components in quality assured uPVC window profile systems. Note: the profiles alone do not justify to carry the RAL-quality mark for uPVC window systems.

The validity of this certificate can be verified on the website www.gkfp.de.
